B 7.2 Hearing on Penalty

Where the Stewards determine an offence has been committed, before imposing any penalty the Stewards must give the offender the opportunity to make submissions on penalty, including any mitigating circumstances which may bear on the extent of the penalty which may be imposed.

B 7.3 Take into Account

7.3.1 The Stewards must have regard to the most appropriate penalty or penalties and should take into account the following factors in assessing any penalty to be imposed:

7.3.1.1 whether the offender made an early admission of a breach of the Rules or whether the Stewards found against them following an inquiry,

(a)

in the top twenty of the points score, must firstly consider a penalty of deducting points; and

(b)

not in the top twenty of the points score, must firstly consider a penalty of a fine; and

7.3.2 For the purpose of Rule B 7.3.1.78, assessment of the top twenty of a series' points score for the first two Rounds of a series in any calendar year will be on the final total of the relevant series' points accrued by the offender in the previous year.

7.3.3 The Stewards may deduct series points in excess of the number of points actually accrued by an offender, even if this results in a negative point score.

B 7.4 Reasons

B 7.5 Multiple Penalties

Where indicated in the relevant Schedule B 4 Table, the Stewards may impose one or more of the specific penalties applicable.

SCHEDULE B 4

PENALTIES FOR OFFENCES

(Rule B 6.2)

INTERPRETATION

In each of the four Tables in this Schedule, the words below have the following meanings:

Additional Penalty:

(1)

may be imposed by the Stewards at an Inquiry whether or not a PLP was imposed, and

(2)

may comprise one or more of the penalties for a breach of an offence specified in these Tables.

Exclude

(1)

Means exclusion of an offending Competitor, driver or Car from the results of a single race or a round of any series where indicated by "Yes" in the relevant column of the Tables.

(2)

Any Competitor, driver or Car excluded from the result of a race or a round of a series will consequently forfeit any relevant awards (including prize money, points and trophies) to which that Competitor or driver may otherwise have been entitled.

Fines

Where a Meeting acquires International status, the maximum fines indicated in the following Tables will be enlarged to the maximum fines provided by the ISC of the FIA.

K where used following a \$figure in a Table means one thousand dollars.

PLP means a Pit Lane Penalty which is not susceptible acceptable to appeal and may be imposed where indicated by "Yes" in the "PLP" column of Table 3; the penalty will be either:

(1)

a "drive-through": in which the offending Competitor's Car must drive through the length of the Pit Lane without stopping and without exceeding the speed limit; or

(2)

a "stop/time/go":

(a) in which the offending Competitor's Car must come to a complete halt in its Pit Bay where it must remain stationary for the whole period of penalty time advised by the Race Director to the Competitor at the time of advising of the PLP, and

(b) the Competitor will be responsible for ensuring that its Car does remain stationary for the whole period of penalty time ; and

(c) Judges of Fact may be appointed in Supplementary or Further Regulations to confirm compliance with the requirements of the PLP.

A PLP will not generally be applied unless there is evidence of the offence that is largely beyond dispute

PLP MAX Time (Column 4 of Table 3) means the maximum penalty time which can be imposed on a Driver either:

(1)

as part of a "stop/time/go" penalty (see "PLP" above), or as

(2)

the addition of the time specified in Column 4 of Table 3 to a driver's best practice, qualifying or race time, in which case:

(a) a Driver attracting penalty time for an offence in any practice or qualifying session (however described) will consequently be placed on the starting grid according to the total of the actual qualifying time and the penalty time; and

(b) a Driver attracting penalty time for an offence in any race will consequently forfeit any relevant awards (including race classification, prize money and trophies) to which that Competitor or driver may otherwise have been entitled.

(c) AVESCO - 2004 Division "B"

Updated 21 April 2004

Page B 23

Commencement of a PLP

(1)

No PLP may be commenced while the Safety Car Boards are being displayed at a flag point to be advised in Supplementary Regulations.

(2)

A Car will be deemed to have commenced a PLP when it crosses the line (real or imagined) that separates the race circuit from the Pit lane access road, a Judge of Fact will be appointed to determine when a Car so commences a PLP.

Points

(1)

Means points which may be awarded to a driver in any series.

(2)

Where the Stewards deduct points as the only, or in addition to any other, penalty for a breach specified in this Schedule:

(a) such points may be deducted even if the deduction will result in a driver having a negative Series points total; and

(b) such points may be deducted from either:

(i) the total points accumulated by the driver to date in the relevant series; or

(ii) the points accumulated by the driver in the race in which the offence was committed; and

(c) the Competitor and driver so penalised will consequently forfeit any relevant

awards (whether of prize money or of trophies) to which that driver may otherwise have been entitled.

(3)

Where indicated by an asterisk *, the maximum number of points which can be deducted will be the same as the number of points which could be awarded to the winner of any single race in the relevant Meeting.

SCHEDULE B 5

CODE OF DRIVING CONDUCT

(Rule B 6.7.3)

1. OBSERVANCE OF SIGNALS

The instructions detailed in Schedule D3 and Rule D10 are deemed to be part of this code of driving conduct. All drivers must be thoroughly acquainted with them.

2. OVERTAKING

2.1 During a race, a Car alone on the race track may use the full width of the race track. However, as soon as it is caught up on a straight by a Car which is either temporarily or consistently faster, the driver must give the other Car the right of way by pulling over to one side in order to allow for passing on the other side.

2.2 If the driver who has been caught does not seem to be making full use of his rear view mirror, the flag marshal/s will give a warning by waving a blue flag to indicate that another driver wants to overtake. Any driver who does not take notice of the blue flag may be penalised by the Stewards. Systematic or repeated offences may result in the exclusion of the offender from the race.

2.3 Curves, as well as the approach and exit zones thereof, may be negotiated by the drivers in any way they wish, within the limits of the race track. Overtaking, according

to the circumstances, may be done either on the right or on the left. However, manoeuvres liable to hinder other drivers such as premature direction changes, more than one change of direction, deliberate crowding of Cars towards the inside or the outside of the curve or any other abnormal change of direction, are strictly prohibited and will be penalised by the Stewards, according to the importance and repetition of the offences, by penalties ranging from a fine to the exclusion from the race. The repetition of dangerous driving, even involuntary, may result in exclusion from the race.

2.4 Any obstructive manoeuvre carried out by one or several drivers, either having common interests or not, is prohibited. The persistent driving abreast of several Cars as well as a fan-shaped arrangement, is authorised only if there is not another Car trying to overtake, otherwise, the blue flag will be waved.

2.5 The penalty inflicted for ignoring the blue flag will also be applied to the drivers who obstruct part of the race track and will be more severe in the case of systematic obstruction, thus ranging from a fine to the exclusion from the race. The same penalties will be applied to drivers who swing from one side of the race track to the other in order to prevent other competitors from overtaking.

2.6 The repetition of serious mistakes or the appearance of a lack of control over the Car (such as leaving the race track) may entail the exclusion of the driver concerned.

2.7 The race track alone will be used by the drivers during any race.

2.8 Except in cases of force majeure (accepted as such by the stewards of the meeting), the crossing, in any direction, of the line separating the deceleration zone and the track is prohibited.

2.9 Except in cases of force majeure (accepted as such by the stewards of the meeting), any line painted on the track at the pit exit for the purpose of separating cars leaving the pits from those on the track must not be crossed by any part of a car leaving the pits.

Page B 28

3. STOPPING OF A VEHICLE DURING A RACE

3.1 The driver of any Car exiting the race track must signal their intention in good time and is responsible for ensuring that the manoeuvre is carried out safely.

3.2

Should a driver be compelled to stop the Car, either involuntarily or for another reason, the Car must be moved off the race track as soon as possible so that its presence does not constitute a danger or prevent normal running of the race. If the driver is not able to move the Car out of a potentially dangerous position, it is the duty of the marshals or other officials to help, provided they can do so without prejudice to their other duties. No driver has the right to refuse to allow his car to be taken off the track, he must do everything he can to help and obey the marshals' instructions.

In such case, if the driver

2.2.1 succeeds in restarting the Car without any external help, and

2.2.2 re-joins the race without committing any breach of the Rules, and

2.2.3 does not gain any advantage from the preceding movement of the Car to a safer position,

the driver will not be excluded from the race.

3.3

Any repairs carried out on the race track may only be carried out by the driver alone by means of the tools and spare parts carried aboard the Car.

3.4 Any replenishment carried out on the race track itself is prohibited and will entail immediate exclusion.

3.5 Apart from the driver and in exceptional cases the competent officials, nobody is

allowed to touch a stopped Car under penalty of its exclusion from the race.

3.6 Pushing a Car along the race track or pushing it across the finish line is not allowed, and will incur immediate exclusion.

3.7 Any Car abandoned on the race track, even temporarily, by its driver, whatever the reason or the duration, will be considered as having withdrawn from the race.

4. ENTRANCE TO THE PITS

4.1 The so-called 'deceleration zone' will be regarded as part of the pit area.

4.2 During the practice and qualifying sessions and races, Car access to the pits is only permitted through the 'deceleration zone'.

4.3 Any driver intending to leave the race track or to enter the pits or paddock area must signal their intention in good time and must make sure that it is safe to do so.

4.4 Except in the case of force majeure, which will be determined by the Stewards only, the crossing in any direction of the line separating the deceleration zone from the race track is prohibited.

5. PRACTICE STARTS/BURNOUTS

Unless otherwise specifically authorised, all practice starts or "burn outs" are prohibited except those made from the Pit Lane exit beyond the speed derestriction sign or at the start of any warm-up lap.

6. KERB INFRINGEMENTS

During any Practice or Qualifying Session:

5.1

First reported breach - Black flag and drive through penalty plus loss of the fastest lap time recorded up to and including the lap on which the breach occurred, in that session.

5.2

Second reported breach - Black flag and drive through penalty plus loss of the fastest and second fastest times recorded at any time during that session.

5.3

Third reported breach - Black flag and car held in Pit lane for the balance of the session and loss of all times recorded in that session.
